

## Aqua: A Simple and Elegant Marp Theme Here comes the second line.

**Date** 

**Name** 

**Affiliation** 

## How to use

- 1. Apply aqua.css.
  - Change the logo by modifying logo-url and logo-blue-url.

```
--logo-url: url(path-to-your-logo.png);
--logo-blue-url: url(path-to-your-logo.png);
```

- 2. The title page can be created with the lead class.
- 3. Also, we have an another style of the title page with blue background: blue.
- 4. As in the original theme gradient, we have a tinytext class. This might be useful for the References slide.
- 5. Have fun!

## Acknowledgement

This theme has been created by modifying and adding code to the theme gradient.

Big thanks to the author.

The primary color (blue) of this theme is picked up from the Marp's public blog page.

- And also the logo.
- Big thanks to the creater of Marp and those who contribute to the eco-system.
